## Counselling and support

Here you will find all counselling centres in Fürth and the district of Fürth.

### What is an advice centre?

You can go to a counselling centre if you have questions or problems. There you will receive professional support and advice from trained staff.

Counselling is free of charge. The staff are bound to confidentiality. This means that they are not allowed to pass on any information if you do not want them to. Counselling is often also available anonymously. This means that you do not need to give your name.

You can ask if the staff speak a language other than German and English. You can also take [a language helper](#) with you.

In some counselling centres, you must make an appointment for a consultation. You can do this in advance by telephone.

If you cannot immediately find the right counselling centre, ask! The counselling centres usually know each other and can direct you to the right address.

You can find health counselling centres [here](#).

### Counselling for adults with a migration background (aged 27 and over)

The Migration Counselling Service (MBE) will inform you. The MBE supports all people who come from another country. But only: if you are older than 27 years and if you have a permanent residence permit for Germany. Or if you are entitled to freedom of movement. Or if you have the right to stay. Very important: Counselling is free of charge.

### Help and information is available on these topics:

- the search for a job
- training
- further training
- Career guidance and job applications
- Finding a flat and accommodation
- language courses
- Immigration law issues
- Public authorities and offices
- Conflict situations

## **How can I support others? Volunteering**

### **Become active as a volunteer**

Many people in Germany do voluntary work.

What is voluntary work? Volunteering is always voluntary and you don't get paid for it. All volunteers decide for themselves how much time they want to spend on this work. Many people volunteer because they enjoy helping others. And because they get to meet new people through their voluntary work.

There are many ways to volunteer. For example, you can

- help older people
- help look after children
- work as a sports coach at a sports club
- support people with disabilities
- Work as a paramedic
- Helping refugees
- help at an animal shelter (animals are also happy to receive support!)
- and many other things

### **Would you like to volunteer yourself?**

There are contact points in the city and district of Fürth for anyone who wants to volunteer and is looking for meaningful work. Here you will be given specific tasks. (See below for contacts to organisations, groups or associations looking for volunteers).

Here are a few projects you can work on, for example:

- Language support programmes
- Involvement in primary schools and daycare centres
- Open meetings for migrants and locals
- Public relations work
- Help with bureaucracy when moving into a new home
- Support for senior citizens
- Projects for women, parents and families
- And many other projects in the area of asylum

You can also contribute and realise your own ideas!

## Advice on labour and social law issues

Are you not being treated fairly at work or during your training? That doesn't have to be the case.

There are 2 counselling centres for you.

The counselling centres are called:

- Fair Mobility
- Fair integration

The advice centres will help you. You can then defend yourself.

For example, against exploitation or discrimination at work.

You need to know your rights. Then you can make use of your rights.

You can find information in several languages [here](#).

### Advice is available on these topics:

- Employment, training or internship contracts
- open-ended and fixed-term contracts
- temporary work
- mini job
- working hours
- Wages and continued payment of wages
- Termination
- Illness and accidents at work
- Holidays
- Trade unions
- Pseudo self-employment
- Social insurance (health insurance, long-term care insurance, pension insurance, unemployment insurance, benefits from the employment agency and job centre)

Do you have problems at work? Or do you have problems with your training or internship? Then we can advise you. The counselling costs nothing. And the counselling is secret. We will help you. It doesn't matter

- how long you are allowed to stay in Germany
- whether you are a member of a trade union.

We will advise you in person, on the phone or by e-mail.

The counsellors will show you possible solutions.

You can then decide for yourself which path you would like to take.

You will only receive out-of-court counselling

You will receive information on labour law representation in court proceedings.

In other words: Who can represent you in court?

Trade unions or specialised lawyers can do this.

## Local networks

What is a network? Different people work together in a network. It connects people who live in a certain place. For example, in a neighbourhood. Many work voluntarily and in their free time. They do this because they think it is important to stand up for all people. Or because a certain cause is very important to them. Networking means, for example, getting to know other people. Talking to each other. And supporting each other.

## Neighbourhood networks

The coordinated neighbourhood networks in Fürth exist in 6 districts. They offer local help. You can go there if you have any questions. Or if you want to get to know people from the neighbourhood. You can go there if there is a dispute in the neighbourhood. You can find more information [here](#).
