Refugees are looking for a new home. They had to leave their homes - because there was war, because they were persecuted and endangered, because they could no longer earn a living for themselves and their families. They tell us what they want for their new home, Fürth, or what they like here. Audio recordings bring you into contact with various people with a refugee background. The second part of the event is dedicated to those who have made it, refugees who have arrived and built a new life for themselves. Some work in a profession like you and me. We want to show you some examples of successful integration.

Four times a year, we want to invite "specialists" from Fürth - people from a wide range of professions who would like to talk about what life is like from their desk, their workbench or their cockpit in short interviews, framed by live music. Touching, "heart-moving" music, professionally and convincingly performed by people with and without disabilities, regardless of their origin, whether old or young, rich or poor, was and is the declared aim of the "Inclusive Sound Festival" event format. In line with the United Nations Convention on the Rights of Persons with Disabilities (2006), the inclusive sound festival gives all people the opportunity to "develop and utilise their creative, artistic and intellectual potential, not only for themselves, but also to enrich society."

For the 10th time now, the festival presents music that wants to be played and heard. Interesting music by interesting musicians for an interested audience. In 2007, it was by no means foreseeable how strong and far-reaching the festival concept would be. Today, sound festivals also take place in the cities of Dortmund, Hanover, Aalen, Vienna, Lörrach, Basel and Haar.

The inclusive sound festival offers a stage for the diversity of all artists. At the same time, it is a political statement in favour of an equal opportunities and inclusive society, as well as a statement against the abuse of power and discrimination.

People with a migration background talk about their different journeys to and in Germany in entertaining videos. Afterwards there will be time for discussion and dialogue.

Admission: €12-44 depending on category

"People are rarely satisfied with what they have. The human mind does not usually react to achievements with satisfaction, but with a desire for more." - So writes historian Yuval Noah Harari in his "Homo deus", published in 2015. Ronen and Schaad have turned this critical non-fiction book into an evening of theatre full of black humour that poses the essential question of whether the digital revolution and new technologies bring freedom or rather rob us of it. The supposedly distant dream of the future comes threateningly close - from utopia to dystopia in just one evening.

Musical diversity, an unrivalled charisma and her incredible energy make Ki'Luanda one of Nuremberg's most interesting artists. Fresh from the urban jungle of Gostenhof, rhythmic beats rise up to make hearts beat faster. With a lot of soul, she sings gospel through the woods to grab people by their roots. Lots of soul meets funk and jazz and a breeze of R'n'B. Ki'Luanda and her band make it rain sounds to grow together.
