

## About the app

This web app is a digital guide for all residents of the City of Aschaffenburg: Where can I have my identity card changed? How can I request a translator for an appointment? What counselling centres are there on the topic of XY? This app aims to make living in the city as easy as possible. Here you can find important information, addresses and counselling centres that can help in everyday life. Only non-commercial offers and facilities are shown.

After downloading, you can also use this app offline if you do not have internet access. The app will update automatically when you are back online.

The contents of the app are available in many languages. Of course, this no longer applies to most of the pages we link to. If you live in the City of Aschaffenburg and need translators, you can contact the language and cultural mediators: [SKV - Language and cultural mediators](#)

The app was developed by the "Bildungsbüro" (Education Office) and the "Familienbildung" (Family Education Department) of the City of Aschaffenburg.
