Welcome to the district of Rastatt

Welcome

The district of Rastatt is one of the most beautiful and economically strongest districts in Germany. It is popular for its contrasting landscape between the Black Forest, the Rhine and the vineyards, for the hospitality of the people and is considered a leisure paradise for cyclists and hikers.

Our district has a lot of potential. Together with the district council, we are working to ensure that our economy has the best framework conditions and that we counter climate change with sustainable and resource-saving concepts.

We want people to live and work here well and with pleasure. In this app you will find everything you need to know about our district as well as services and offers on various topics.

Browse through our categories and get the information you need with just a few clicks.
