Insurances

Even if you do not intentionally cause damage to a person in Germany, you must pay compensation according to the law. This applies to personal injury, property damage and financial losses in the private sector. For example, if you cause a traffic accident or if your child breaks a window pane with a ball.

In Germany, you can take out a private liability insurance policy (Haftpflichtversicherung) that pays for these damages for you and your family/children. You can decide for yourself whether you want to take out this insurance. But we urgently recommend it.
