

## Insurance

### Personal liability insurance

If you cause damage to a person in Germany without intending to do so, you must pay compensation according to the law. This applies to personal injury, property damage and financial loss in the private sphere. For example, if you cause a traffic accident or if your child breaks a window pane with a ball. In Germany, you can take out private liability insurance that pays for this damage for you and your family/children. You can decide for yourself whether you want to take out this insurance.

Here you can compare different liability insurances:
