Living together in Germany

Communication and relationships

Communication

You will meet lots of new people in Germany.
Look around you.
Observe: How do people talk to each other?

Greeting

Greeting: Two people shake hands.
Eye contact is very important!
Eye contact is a sign of respect and security.
People respect you. You respect other people.

"You"

People often address you as "you".
Why is that? They don't know you.
"She" is polite. Always with strangers.

For example: doctor, teacher, at the office/authority...

Relationships between people

Man and woman

Men and women are equal in Germany.
Equal = no one is better or worse.
Men and women have the same rights in Germany.
Example: Women and men are allowed to work in all professions.

I am an individual

All people are different.
All people in Germany decide individually:
How I want to live.
What do I eat.
What do I wear.
What do I work.
Who do I love.

What do I believe.
All people in Germany are allowed to be different.
We respect all people.

Relationships and family

Every man looks for his partner himself.
Every woman looks for her partner herself.
People say about their partners when they are **not** married:
"This is my girlfriend".
"This is my boyfriend".
Partners decide together: Do we want to get married or not?
I can't marry two people.
Polygamy = polygamous marriages are forbidden in Germany.
Women and men are allowed to live their sexuality freely.
Women and men should respect the wishes of their partners.
Other people must be respected.
Germany is a sexually tolerant country.
A man and a woman can love each other.
A man can love a man, and a woman can love a woman
(<https://dejure.org/gesetze/GG/2.html>).
A man or a woman can also be alone.
People do not have to marry
(Art. 6 GG - dejure.org).
How you live is your own decision
(<https://dejure.org/gesetze/GG/6.html>).
Sex in public can be a criminal offence
(<https://dejure.org/gesetze/StGB/183a.html>).
Sex with children under the age of 14 is always a criminal offence
(<https://dejure.org/gesetze/StGB/176.html>).
Sex without consent is always a punishable offence. Rape is a punishable offence.
(<https://dejure.org/gesetze/StGB/177.html>).

This text explains the rules in Germany in simple terms. It is not legal advice. Only the official laws of the Federal Republic of Germany are legally valid.

Keywords: relationships, politeness, equality, individuality, partnership, couple, sexuality, consensus

Dates, authorities, documents

Appointments

You have many appointments in Germany. (at the doctor, at the immigration office)
An appointment is an important meeting.
For a time and a place.

Example: the appointment is at 12:00.
Everyone arrives exactly at 12:00. 12:15 is too late.
If a person arrives at 12:15, they say "sorry".

Example: Your friend can't come to the appointment.
Your friend tells you in advance: "I'm not coming".
There is a new appointment.

Authorities

Authority = office (immigration office, social welfare office, youth welfare office, etc.)

Important:

When is the office open? Look for the opening times.

Opening hours = You can come.

Bring your documents with you:

For example: passport, proof of arrival, fiction certificate, residence permit (EAT)...

Documents

Example: Letters, forms, contracts...

Documents are important in Germany.

You will receive many new documents in Germany.

In letters, at the doctor's, at the authorities...

You often have to sign documents:

At the doctor: information, clarification

At the authorities: Form, declaration

Flat and mobile phone: contract

Always read documents carefully!

Don't understand a document? Ask questions!

Here you will find various organisations that can help you.

Depending on your country of origin, age and type of certificate for your stay, different counsellors are there for you:

[fly_6seit_wegweisermigration_st_lkr_reg_240110a.indd](#)

You sign a contract.

You must fulfil the contract.

Your signature = obligation.

Letters, documents and contracts are important! Do not throw them away.

Keywords: bureaucracy, appointments, papers, post, authorities, punctuality

Online portal about fake news: "Lies?! Don't let yourself be manipulated"

There is a lot of useful information on the Internet.

This information can help you.

But there are also websites with false information.

This false information is spread deliberately.

This happens, for example

- to make certain groups look bad
- to create fear
- to increase anger or hatred
- to influence and divide people
- to make money through fraud

These dangers are growing. The reason is new technologies such as:

- Artificial intelligence (KI)
- artificial panellists (Bots)
- false user accounts (Fake-Accounts)

False information **does not only exist as text.**

There are also **fake images and videos.**

The Bavarian Ministry of the Interior has created a platform for this purpose.

It helps against false information on the Internet.

The platform:

- helps you to check information better
- is supervised by scientists
- shows the consequences of false information
- is available in German and English

You can find the platform here:

Asylum

Asylum application

How does the asylum procedure work?

The asylum procedure in Germany is complicated.
Your asylum is decided by a state authority, the **Bundesamt für Migration und Flüchtlinge (=BAMF)**:

[BAMF - Bundesamt für Migration und Flüchtlinge - Asyl & Flüchtlingsschutz](#)

The video explains the asylum procedure:

[BAMF - Bundesamt für Migration und Flüchtlinge - Infothek - Informationen zum Asylverfahren. Ihre Rechte und Pflichten.](#)

(Languages: German, English, Albanian, Arabic, French, Persian)

These internet links from Bayerischen Flüchtlingsrat provide more information:

[weitere Informationen](#)

(Languages: German, English, Arabic, Farsi, French, Russian, Spanish, Turkish)

The brochure explains your rights and obligations at Asyl-Verfahren (= the authorities will check whether you can stay):

[BAMF - Bundesamt für Migration und Flüchtlinge - Infothek - Broschüre: Informationen zum Asylverfahren. Ihre Rechte und Pflichten.](#)

(Languages: German, English, Arabic, Albanian, Farsi, French)

How can you get asylum?

- You have just arrived in Germany.
You must register with a **government agency** .
For example: police, immigration office, reception centre, AnkER centre.
You can register at the border or at another location.
- You will now be **registered**.
Your personal data will be written down.
For example: Name, age, language, country of origin.
Everything is saved.
You will be photographed and fingerprinted.
==> Register only once!
==> You will receive your proof of arrival.
The proof of arrival is very important! It proves that you are authorised to stay in Germany.
Keep it in a safe place!
- You will now go to an **AnkER centre** or another **reception facility**.
Here you will live with other people seeking asylum.
Here you will receive money for food, hygiene and other necessities.
Here you will get help if you are ill.
- You may have to move to another federal state.

Apply for asylum

Just say it: Important information about the asylum application (= an application that is important for your future stay):

[Informationen zur Antragstellung](#)

Just say it: Important information about Anhörungstermin (= an interview at the BAMF that is important for your future stay).

[Informationen zum Anhörungstermin](#)

- You submit your **asylum application** at the AnKER Centre or the Arrival Centre.
You will be told when you can submit your asylum application.
You submit your asylum application in person.
An interpreter will help you.
- Now you have to wait for your **personal interview at the BAMF** .
This is **your most important appointment!**
The interview is a kind of interview.
An interpreter will help you.
Here you explain why you have come to Germany.
You can bring evidence with you.
This shows why you fled to Germany.
For example: photos, letters, documents.
Think carefully about what you say.
You can seek counselling beforehand.
Look at "Counselling and help".

Important information about the interview:

[BAMF - Bundesamt für Migration und Flüchtlinge - Persönliche Anhörung](#)

(Languages: German, English Albanian, Amharic, Arabic, Farsi, French, Kurdish-Kurmanji, Macedonian, Pashto, Russian, Serbian, Somali, Tigrinya, Turkish, Urdu)

Your asylum application will be decided

You will have to wait after the interview.
The BAMF will examine your asylum application.
This can take some time.
Then you will receive a **letter from the BAMF**.
Are you allowed to stay in Germany?

=> Yes!

Your asylum application will be granted.
You will receive a **favourable decision**.
You will receive one of four protection authorisations.
These are: **Entitlement to asylum, refugee protection, subsidiary protection, prohibition of deportation**.

=> No!

Your asylum application is rejected.
You will receive a **negative decision** and a **threat of deportation**.

What can you do if the answer is "no"?

[BAMF - Bundesamt für Migration und Flüchtlinge - Rechtsmittel gegen die Entscheidung](#)

That is difficult.
You only have very little time!
Therefore, seek help!

Who can help you?

A lawyer: You have to pay money for a lawyer.

Social worker: The job of a social worker is to help you.

You don't have to pay any money.

Look at "[Counselling and help](#)".

Volunteers: These are people who help you voluntarily.

You don't have to pay any money.

Look at "[Counselling and help](#)".

What else can you do?

You can leave Germany voluntarily.

This means that you return to your country of origin without being forced to do so.

Sometimes you get money for this departure.

There are various offers.

Search for your country here and find out more:

[Informationsportal zu freiwilliger Rückkehr und Reintegration](#)

What happens if you don't leave?

You no longer have permission to stay in Germany.

This can lead to **deportation**.

This means that the immigration office and the police force you to leave.

They pick you up from your accommodation.

Then they take you straight to the **airport**.

You have to fly back to your country of origin.

Sometimes the police also take you to a **deportation centre**.

You have to wait in a special **prison** until you are taken to your country of origin.

Deportations are not always possible.

For example:

If you cannot be deported to your country of origin because there is a war there.

If your country of origin does not want to take you in.

If you do not have a passport from your country of origin.

If you are very ill.

ANKER facility Regensburg

What is an Anker facility?

There are places in Bavaria where people who want asylum and have recently arrived in Germany can live temporarily.

Anker is an abbreviation and stands for **arrival, decision and return**.

This does not mean that you automatically have to travel back if you live temporarily in the Anker.

During this time, however, a decision is made as to whether you will be granted asylum for the time being.

The Anker-Einrichtungen are houses where people seeking asylum live for a certain period of time.

Many important organisations for this are directly on site.

For example, the Federal Office for Migration and Refugees (BAMF), the refugee and integration counselling service or the social welfare office.

The Anker in Regensburg is run by the government of the Upper Palatinate:

Here you will find many banks

[regensburg banken - Google Suche](#)

and savings banks

[regensburg sparkassen - Google Suche](#)

in Regensburg.

Why do I need a bank account?

Do you receive money from your work?

Do you get money from an office?

You have to pay your rent?

You have to pay your phone bill?

⇒You need a bank account.

How do I get a bank account?

Go to your bank or Sparkasse.

Say: "I would like to open an account".

Many people in Germany have a Bürger-Konto or a Guthaben-Konto.
You cannot incur debts with a citizen account or a credit account.
There are also other accounts.
Ask at your bank.
You can go there without an appointment.

If you need to:

Take a friend with you who speaks German or English.

What documents do you need to take with you?

- Passport or identity card
- A document for your stay in Germany
 - for example: a Ankunfts-Nachweis or a Aufenthalts-Gestattung or a Duldung)

Good to know:

There is a **spouse-partner bank account**:
You have a husband or a wife?
You can share a bank account with your husband or wife.

Important:

You must pay a Konto-Führungs-Gebühr:
You give the bank money for your account.
Ask your bank how much you have to pay.

You have to get account statements.
You must keep account statements.
Ask your bank or Sparkasse!

The bank will write you letters.
The letters are very important.
You have to open all the letters.
You don't understand the letter?
Ask your bank or Sparkasse!

Keywords: finance, cash, bank transfer, current account, savings account, banking, Maestocard, credit card

You need health insurance

What is statutory health insurance?

Look here in the app for the healthcare system in Germany:

 [Healthcare system in Germany](#)

There are many health insurance companies.
Krankenkassen give you health insurance and a card.
The card is an "electronic health card".
You need the card when you go to the doctor or hospital.

How do I find a Krankenkasse?

Health insurance is a type of insurance. It pays when you have to go to the doctor.

Search online for Krankenkassen. There is a list of all health insurance companies in Bavaria:

<https://www.gesetzlichekrankenkassen.de/preise/bayern/bayern.html>

Here you can also see which health insurance companies are available in Regensburg.

Decide on a health insurance company.

Check when this health insurance company is open.

It is best to make an appointment.

IMPORTANT: The health insurance company needs your documents! Bring them with you to the appointment:

- Anerkennungs-Bescheid BAMF (Federal Office for Migration and Refugees)
- "Fiktions-Bescheinigung" or electronic residence title (card)

Keywords: health insurance, health insurance, insurance card, medical treatment, cost bearer, medication, healthcare system, doctor, hospital

You need a flat

When are you allowed to move into your own flat?

You are a recognised refugee.

You have a letter from BAMF: "Anerkennungs-Bescheid"

People from the **community accommodation** (GU) or reception centre tell you: You may move out.

You can pay the rent (= money) for a flat.

I can move out. But I have no money for the rent.

Who can help me?

The Job-Center can give you money for the rent:

You must first go to Job-Center .

Later you sign the rental contract.

The Job-Center will check: Is the flat too big or too small.

The Job-Center tells you: You will get money for the flat or not.

Then you can sign the tenancy agreement and move.

I have a flat: What do I have to do now?

You must immediately stick your name on the letter box of the new flat.
You will receive important letters from Job-Center.

How do I look for a flat?

Look under "Housing" in the app:

Keywords: accommodation, flat search, flat adverts, tenancy agreement, rent subsidy, rent subsidy, social housing

Support from volunteers

Full-time integration guides of the city of Regensburg

Integrationslotsen supports people who help migrants to find their way around a new place in their free time.

They make sure that the volunteers are able to help well and are not overwhelmed themselves.

For example, they provide support when volunteers take refugees to the authorities.

Volunteers help voluntarily and in their free time. They do not do this for a living.

They usually don't get paid for it. They help because they enjoy it and because they want to help others.

What are our tasks?

We support all volunteers.

We are mediators.

We network offers.

We organise training courses.

We provide support in the search for accommodation.

We help volunteers with their questions.

We do public relations work.

Sponsorships for refugees

What is Patenschaften for refugees?

The refugees are new to Regensburg or have been living here for some time.

There are people who volunteer their time to help them or simply spend their free time with them.

For example

- show them the city
- practising German
- cooking together, doing sports or spending free time together
- help with homework
- Attending appointments with the authorities
- help with finding accommodation

The city of Regensburg helps to find sponsors for refugees. Sponsors are people who help and support. The city also provides help with questions or problems.

Housing entitlement certificate for social housing

There are special flats in Regensburg. The rent is particularly favourable.

The state helps to ensure that the flats are not so expensive. These flats are called Sozialwohnungen. You can rent such a flat if you earn little money.

You need a certificate so that you can rent the flat. The certificate is called Wohnberechtigungsschein. The short word for this is WBS.

What is the difference between Wohnberechtigungsschein and Vormerkbescheid?

You will be categorised according to your income.

If you are in income level II or III, you will be issued with a Wohnberechtigungsschein (WBS).

You can use it to apply for a suitable flat yourself.

If you are in income level I, you will receive a notice of reservation. The office will then recommend you to the landlord of a flat.

Please note:

The official language is only German. Bring an interpreter with you to ensure good communication! You and the other people in your household must meet certain income limits in order to be eligible for a WBS or Vormerkbescheid.

What documents do you need?

- Application
- Einkommenserklärung of the entire household
- Identity card or passport
- Residence permit if applicable or Fiktionsbescheinigung
- Severely disabled person's pass, if applicable
- if applicable Heiratsurkunde
- if applicable Mutterpass
- Proof of income for the last 12 months
- Reason for the urgency with corresponding evidence

Full-time integration guides of the city of Regensburg

The integration guides support people who help migrants to find their way around a new place in their free time.

They make sure that the volunteers are able to help well and are not overwhelmed themselves.

For example, they provide support when volunteers take refugees to the authorities.

Volunteers help voluntarily and in their free time. They do not do this for a living.

They usually don't get paid for it. They help because they enjoy it and because they want to help others.

They also help migrants to get involved in voluntary work themselves.

Here you will find the most important tasks of integration guides and the contact details of the integration guides of the city of regensburg Nadine Sandner-Neumann and Iris Wittmann:

The Geburts-Anzeige contains the following information:

- First name of the child

Contraception and family planning

Family planning/contraception

If you

- do not want to get pregnant
- protect yourself from sexually transmitted diseases

you must use a contraceptive during sex. For example condoms.

There are many different contraceptives. Some cost more money than others. The contraceptives work differently. Find out more! If you are not sure which contraceptive is right for you, ask a doctor.

You can find information on contraception in many languages here:

[Verhütung | Zanzu](#)

ATTENTION:

Only condoms can protect you from AIDS and other diseases!

No contraceptive is 100 per cent safe!

Costs for contraception

Are you under 23?

Your health insurance will pay a large part. You only have to pay a small part yourself.

From the age of 23 you have to pay for contraception.

If you have little money, the city of Regensburg can cover the costs of contraception. You must submit an application to the social welfare office.

You can find information here:

[Flyer Kostenübernahme für Verhütungsmittel](#)

Keywords: contraceptives, contraception, condoms, pill, birth control pill, sexually transmitted infections, STI, preventing pregnancy, safer sex

Pregnancy conflict and abortion

Are you unintentionally pregnant? Have you tested positive for pregnancy?

You don't want a child at the moment?

Because you are very young.

Because you have no money.

Because you have no support.

Because you don't want to be a mum.

Then you can have an abortion. (= terminate pregnancy)

In Germany, it's **okay not to** want a child. Every woman can decide for herself. Do I want to be a mum or not. In Germany you are allowed to terminate a pregnancy.

It is allowed. But only if

- it is before the 12th week
- after the 12th week only if there is a serious risk to you or your baby (e.g. illness, disability)

What do you have to do now?

- Call the gynaecologist --> make an appointment

"I am pregnant, I need an examination"

- Go to a counselling centre --> Make an appointment

"I need counselling about my pregnancy"

Counselling is **compulsory**. Counselling is **free of charge**. The staff there want to help you. They have a duty of confidentiality. They are not allowed to tell anyone about it. You can trust them.

- after the counselling --> think for at least 3 days: Do I want the child? Do I not want the child?
- Make an appointment for an abortion or keep the baby

If your German is not yet so good, the doctor or counselling service can book an interpreter for you.

Children's health (health insurance, paediatrician)

Health insurance for children

Health insurance for your child **does not** normally cost **any** money.

Your child is "familien-versichert", which means that they are insured together with you.

Your child will receive an insurance card.

You must take your child's insurance card with you to the doctor.

You **do not** have to pay any money for your child at the doctor.

Paediatrician

There are special doctors for children: paediatricians (doctors for Pädiatrie).

They know all about paediatric health.

Choose a paediatrician for your child.

⇒ **Here you can find paediatricians in Regensburg:**

[kinderarzt regensburg - Google Suche](#)

U-Untersuchungen (= paediatric check-ups)

You must take your child to the doctor regularly.

The U-Untersuchung is good for your child's health.

The health insurance company pays for the U-examinations.

You will receive an examination booklet (yellow) -> The Gelbe Heft

You can find information about the "yellow booklet" here:

[Das Gelbe Heft | kindergesundheit-info.de](https://www.kindergesundheit-info.de)

Take the examination booklet with you to the examinations!

What are the U-examinations?

You must make an appointment for your child with the doctor for the U-Untersuchung examination.

The doctor will examine

- Mobility
- dexterity
- Speech and comprehension
- social behaviour

He advises on various topics:

- Vaccinations
- Accident prevention
- Dental health
- nutrition
- other problems and concerns you have about your child's development

Important: the examination must be carried out at a specific time!

⇒ **Here you can see when your child needs to be examined:**

[Terminrechner für die U1-U9-Untersuchungen | kindergesundheit-info.de](https://www.kindergesundheit-info.de)

The U examinations are early detection examinations.

This means that if your child is ill, the illness can be detected and treated **early**.

The doctor will check whether your child is developing properly (for example: how well can they speak?)

Your child can be supported and encouraged.

Vaccination

The paediatrician can vaccinate your child.

(Vaccination = protection against a disease)

Ask the paediatrician.

The health insurance company pays for the vaccination for children.

⇒ **Recommended vaccinations for children:**
