Volunteering

Volunteer work

Findingsupport

There are groups in all neighbourhoods in Remscheid that are committed to helping **migrants and refugees**. The volunteers help migrants to find their way around their neighbourhood. They provide support with questions about everyday life. For example, if a letter is not understood in German. Many volunteer groups also offer support with learning German. They do this voluntarily and without money. All volunteers decide for themselves how much time they want to spend on this work. They help because they want to do something good for other people. They do this after work, in the evening or at the weekend, for example.

If you need help, you can also turn to volunteers. For example, they can help you

- learning German
- understanding letters and forms
- with visits to the doctor or authorities
- finding accommodation
- getting to know other people
- in leisure groups for children and families

Help with translating - language mediators in Remscheid

Many people who come to Remscheid for the first time speak other languages. These languages can help with translation.

The city of Remscheid is always looking for people who speak other languages well. These people help others who do not yet speak German well.

For example, they translate during conversations in:

Schools and kindergartens,
offices and other public offices
or in counselling centres where help is available.
This makes it easier for everyone to understand the important information.
