

Employment Agency

The Employment Agency is responsible for everything related to employment. If your asylum procedure is still ongoing (temporary residence permit) or if you have a temporary suspension of deportation (asylum procedure legally rejected), then the Employment Agency is your point of contact for questions about the transition from school to work (career counselling), job placement and advice on further vocational training, recognition of your qualifications and employer counselling (employer service).

Have you been recognised? Then the [Job Centre](#) is your point of contact for advice and placement in the labour market.
